

Your Relationship Intelligence System

Prepared for Dave Waldman · by Shenard Byrd, Total Control Consulting · June 2026

Dave, here is where things stand. The short version: it is built, it is tuned to how you actually work, and you can click into a live demo today.

WHAT IS BUILT AND WORKING

- **One daily view.** Your follow-ups in one place, most urgent first, so nothing hides in the inbox.
- **Deadline protection.** It tracks acquisition years against the filing statute and flags a refund window before it can expire. This is the loss we both want to end.
- **Drafts in your voice.** Each follow-up is written the way you write, ready for a glance and a send. Nothing goes out without your approval.
- **Objection answers, including ADP.** It recognizes a pushback and surfaces your own rebuttal, the "second pair of forensic eyes" that does not replace existing providers.
- **Dormant re-engagement.** Quiet prospects and prior clients with a new acquisition resurface on their own.
- **Built for simplicity and control.** Runs on your Mac, about ten minutes a day, with secure access you grant to teammates when you are ready.

TUNED TO YOU, NOT GENERIC

I studied your real emails and the references you uploaded. The system now reflects your follow-up cadence, your fee and sliding-scale language, your internal team voice, and your named wins by industry. Your testimonials are organized by sector so the right proof reaches the right prospect.

SEE IT YOURSELF

<https://sbyrd-create.github.io/relationship-intelligence-demo/>

Open it in any browser. Click any item to see the draft, then Approve to copy it. It uses sample data, and nothing is ever sent.

WHERE WE ARE

- Assessment and blueprint: complete.
- Working prototype: built, tuned to your emails, and demo ready.
- Full build out: ready when you are, one phase at a time.

TWO QUICK THINGS FROM YOU

- What would make this a clear win for you in the first 30 to 60 days?
- Any Ryan policy on AI tools touching email, so we set the right guardrails up front.

Talk soon,

Shenard Byrd
